  - <http://www.eofs.eu/?id=lad14>

The screenshot shows the EOFS website page for the LAD 14 workshop. The header includes the EOFS logo and navigation links: Home, Members, Events, LAD'14, Lustre, and Impressum. A search bar is also present. The main content area features the LAD 14 logo with the text 'LUSTRE ADMINS & DEVELOPERS WORKSHOP' and 'Reims France 2014'. Below this, the event details are provided: 'September 22-23, 2014 - France, Domaine Pommery, Reims'. A paragraph describes the workshop as the fourth European Lustre Workshop, organized by EOFS and OpenSFS, taking place in Reims from September 22nd to 23rd, 2014. It highlights the opportunity for worldwide administrators and developers to share experiences and developments. A link is provided to check the last year's LAD content. The 'Dates' section specifies the two-day event from Monday, September 22nd, to Tuesday, September 23rd, 2014. A list of key dates includes the presentation proposal deadline (July 25th, 2014), the end of early bird rate (August 24th, 2014), the end of registration (September 12th, 2014), and the workshop itself (September 22-23rd, 2014). The 'Agenda' section mentions the LAD'14 Program Committee and EOFS and OpenSFS community representative members. On the right side, a 'Sponsors' section lists logos for BULL, cea, CRAY, DataDirect NETWORKS, intel, and xyratex (A Seagate Company). Logos for EOFS, OpenSFS, and Université de Reims Champagne-Ardenne are also visible.

# Thank you
