- Eric Monchalain (Bull/Atos)
- Jacques-Charles Lafoucriere (CEA)
- Walter Schön (GSI)
- Frank Baetke (acting for HPE)
- Adam Roe (Intel)
- Arndt Bode (LRZ)

## **Lustre BoF at ISC 2018: Very successful – room was packed with attendees. Major part of the BoF session did focus on Q&A with the audience.**

- Who is new to Lustre, either considering it or recently deployments?
- Why are you considering it, or why did you choose it?
- If you don't use Lustre, what keeps you or others from adopting it?
- Do you see any open alternative file-systems to LUSTRE?  
*(if that questions is of interest you may want to stay on in this room)*
- What challenges – if any- do you see given the most recent developments?
- **What does the tranfer of Lustre assets from Intel to Whamcloud (DDN) mean to the Lustre community?**
- **Of course we used the BoF to re-announce and promote LAD'18.**

EOFS and OpenSFS are organizing the 8th European **Lustre Administrators and Developers Workshop**. It will take place in Paris, at the Marriott Champs Elysees Hotel, on the 24th and 25th of September, 2018.

LAD has been a great opportunity for Lustre administrators and developers to gather and exchange their experiences, developments, tools, good practices and more.

### **Important Dates:**

**LUG 18: Monday, September 24<sup>th</sup>, 2018 to Tuesday, September 25<sup>th</sup>, 2018.**

It will be followed on Wednesday, **September 26<sup>th</sup>** by the Developer Summit.

Presentation proposal deadline is July 29<sup>th</sup>, 2018

**Participating companies and organizations are invited to sponsor LAD 18.**
