

### Open Scalable File Systems, Inc (OpenSFS)

LAD 2012 Paris 24 Sept 2012 Norman Morse, CEO

3 Aug 2012

### Open Scalable File Systems, Inc (OpenSFS)

- We are a consortium of cooperating Lustre users working for the benefit of all the Lustre Community
- We consolidate our resources to fund required improvements in Lustre development and support (~\$6M to date)
- Currently funding \$2.2M (soon to be increased considerably) in Lustre development
- Currently funding \$1.2M/yr for Lustre tree support (we split the cost of tree support with Intel)
- Lustre Testing resources (LLNL, ORNL, IU)
- What's next? Exascale, Enterprise please join and help direct future efforts

3 Aug 2012

# We Operate through Working Groups of volunteers from our Participants

- Technical Working Group is responsible for RFPs for development and development contracts
- Community Development WG is responsible for Tree Support contracts and OpenSFS web page
- Benchmarking
- Lustre over WAN
- Proposed....Future Systems WG what's next

Note: for as little as \$5k you can join a working group and provide input into Lustre development and the expenditure of several \$M per year
